

**KANSAS CITY
BOARD OF TRADE**

As has been previously announced, the Kansas City Board of Trade (KCBT) plans to continue its Hosting Agreement with CME Group for listing of its products on the Globex platform for electronic trading. As part of the migration process, those firms currently connected in the e-cbot environment will be contacted by either e-cbot Key Account Managers (KAMs) or Globex Account Managers (GAMs) to confirm your desired relationship setup for Globex.

Although much of the information contained at the links below is geared toward those responsible for the operation at firms and ISVs, we encourage everyone involved with or participating in electronic trading of KCBT products to familiarize yourself with the migration schedule, Globex system functionality and system policies.

Milestone	Date
Testing available in the New Release Environment	August 12, 2007
